QuickSort - Hinweise

Im folgenden Zeichnen wir den alten Zustand des Arrays mit ein.

Dies dient der Veranschaulichung, diese Daten entsprechen der vorherigen Zeile, wenn man QuickSort auf Papier in einer Tabelle durchführt. Am PC existiert die Zeile "Alt" aber *nicht*.

Nur der als "Aktuell" beschriftete Zustand existiert im PC.

Bitte nicht Drucken!

Dies ist Daumenkino, für die Betrachtung am PC. Es auszudrucken wäre Papierverschwendung.
