- Please check immediately if your registration for the exam at *UniWorX* was successful. In case of dubiety contact us immediately!
- Please get at latest at **11:55** in your corresponding lecture hall. After the start of the examination, further admission of participants is not possible.
- The lead time of the exam is **90 minutes**.

### **2 Student- and identity card**

Please bring for the exam a valid student card or certificate of enrollment **and** a valid photo identification (e.g. identity card, passport).

### 3 Exam material and auxiliary resources

- The exam encompasses the content of the **entire** lecture and tutorial.
- The exam will be in English, however the answers can be provided in English or German.
- Except an simple non-programmable calculator, no further auxiliary resources (like e.g. books, lecture notes, any personal notes, own paper, smartphone, etc.) are permitted.
- Given the case that you have brought with you any of the above mentioned prohibited auxiliary resources, you are supposed to put them in a bag which is closed and stored on the ground. All smartphones or mobilephones must be switched off during the entire time of the examination.
- Please note that a case of contravention or an attempt of deception will have failing to pass the examination as a consequence.
- Paper for taking notes and for processing the exam will be provided by us.
- Please bring your own writing utensils (e.g. rulers, set square etc.). It is not permitted to write the exam with a pencil or a pen in red or green color. Use blue or black ink or pen.

### 4 Organisational

In order to ensure a smooth process during the examination we ask you to note the following points:

- The exam starts at 12:00. After the start of the examination, further admission of participants is not possible.
- Write on each sheet your name and your student id. This also includes the sheets that have been provided by us.
- An early delivery of the exam during the first 15 minutes and the last 15 minutes is not possible.
- If you have multiple solutions, make explicitly clear which one of the solutions you want to be graded. Failure of doing so will result in grading the worst solution.

**All the best!**  
**Your Big Data - Team!**
